PROFESSIONAL SUMMARY

Full Stack Developer who owns products end to end — scoping, architecture, build, release and post-launch iteration — working alongside senior engineers and stakeholders. I ship across three surfaces at once: **Flutter** and **React Native** mobile apps, **Next.js** storefronts, and a **Laravel + FastAPI** multi-tenant e-commerce SaaS handling inventory, warehouses, orders, sellers, multi-store data and staff permissions. 10+ apps live on Play Store & App Store with 50,000+ downloads across UK, Gulf & Pakistan. I also build and run my own products — an e-commerce store, a jobs portal and an agri-tech platform — where I handle paid Meta & TikTok campaigns myself. Agile/Scrum practitioner, open to remote or on-site roles globally.

WORK EXPERIENCE

Product Engineer

Dec 2025 – Present

EcomPlug · Islamabad, Pakistan · On-site

Stack: Flutter · Dart · React Native · Next.js · React · Laravel · Firebase · REST APIs · Google Maps · GetX · Stripe

- Own the product surface end to end — mobile apps, storefront websites and the core platform — running scoping, architecture decisions, code reviews and releases together with senior engineers, across 3 live apps and 6 production websites simultaneously.
- **EcomPlug — Multi-Tenant E-Commerce SaaS (Laravel + FastAPI):** Platform managing product inventory, tenants, warehouses, orders, sellers, multi-store data and staff roles & permissions from a single system.
- **Next.js storefronts shipped:** zeliy.com, uaestyles.com, dressfair.com/ae, businessarcade.com/ae, yumshape.com, khanstyle.com — SSR/SEO, multi-currency, Arabic RTL and payment gateway integration.
- **DressFair (Flutter & React Native — Play Store & App Store):** Full-scale e-commerce for Gulf markets — Arabic RTL, 5+ payment gateways, live order tracking, push notifications and seller management.
- **EcomPlug Seller App (Flutter & React Native — Play Store & App Store):** Shopify-style seller platform — product & brand management, order dashboard, finance reporting and staff permission controls.
- **ShippingPlug (Play Store):** Driver management app — live GPS tracking, smart route optimization, digital signature, photo proof-of-delivery and target-based earnings.

Flutter Developer

Oct 2024 – Dec 2025

Proto IT Consultants · Islamabad, Pakistan · Hybrid

Stack: Flutter · Dart · REST APIs · Firebase · AI Integration · Provider

- **NovIt AI (Play Store & App Store):** AI content creation platform for influencers — direct publishing to LinkedIn, Facebook, Instagram and TikTok with real-time engagement analytics.
- Integrated 4+ social media APIs — third-party account linking, real-time analytics sync and full state management across the production codebase.

App Developer

Apr 2024 – Oct 2024

Strahlen Studios · Islamabad, Pakistan · On-site

Stack: Flutter · Dart · Google Maps · Stripe · NFC · Firebase · REST APIs

- **Mobula Ray EV (Live UK — App Store):** Full-lifecycle EV charging platform across UK stations — Google Maps locator, slot booking, NFC tap-to-charge, Stripe payments and push notifications.
- Built real-time REST API sync for live station availability, secure Stripe payment flows and NFC hardware integration for contactless charging.

Flutter Developer

May 2023 – Apr 2024

AHAD Softech LLP · Islamabad, Pakistan · On-site

Stack: Flutter · Dart · Firebase · AdMob · AppLovin · Unity Ads · GetX · Crashlytics · IAP

- **AI Calculator (50,000+ Downloads — Play Store):** AI-powered math solver — photo-snap equation detection, scientific calculator, dark mode, monetized via AdMob and AppLovin.
- **Status Saver & All Document Reader:** WhatsApp status downloader with sticker packs, subscription model and PDF toolkit (merge, split, compress, e-signature) — full ad stack across AdMob, AppLovin, Unity and Facebook Ads.

Flutter Developer

Jan 2022 – Jan 2023

Supportive Hands IT Solutions · Abbottabad, Pakistan · On-site

Stack: Flutter · Dart · REST APIs · Firebase

- Built and deployed HR & payroll mobile tools used by 80+ employees — salary calculation (taxes, increments), employee management and progress tracking via Play Store.
- Full REST API integration, Firebase backend and end-to-end Play Store deployment through Google Play Console.

Flutter Developer Intern

2021

CODEMATICS Inc (IT Park) · Abbottabad, Pakistan

Stack: Flutter · Dart · Google Maps · REST APIs

- Built Travel Explorer App end-to-end: Google Maps, nearby places, category filters (Beach, City, Desert, Forest), star ratings and REST API integration.
